

Staff Augmentation

EXPERTS DELIVERD

Staff Augmentation

Need a full-time staffer to help with ongoing IT security challenges? Our team offers long-term staff placement services so that you can bring the best of the best into your environment to help you meet your needs on a daily basis.

When additional resources help is needed to address your critical digital investigations, you can rely on our team of experts for short or long term engagements to augment your existing team during periods of resource constraint.

Staff Augmentation Services

- Temporary Staffing
- Temporary to Hire
- Direct Hire

Forward Defense's Staff Augmentation service provides skilled personnel with real-world security experience to help develop, maintain, manage and support your security environment.

No matter what your requirement, our experts can help you to achieve your goals faster and more efficiently. Forward Defense opens access to top cyber security talent where and when you need it, and we stay involved throughout the assignment.
